 72% of churches have no midweek provision for any age group
 59% of churches have no occasional provision for any age group

3) What percentage has a parish aim relating to young people?

Breakdown of aims – not scientific! Some parishes have more than one aim and so it has been counted in more than one category

Notes:

The categories are just a rough guide. Below are examples of what might be included in each category:

Schools – develop or build on links. Also includes after school clubs and assemblies.

Welcome/Tourism – reordering building/making it child friendly. Ministry to tourist's children, open churches

Uniformed Organisations – develop or build on existing links. Regular invite to family service (i.e. parade)

Music/Choir – outreach through children's choir, informal worship styles

Baptism/Confirmation – building on links made through baptisms – i.e. celebrating anniversaries of baptism. Encouraging confirmation groups.

Sunday School – both developing and setting up

Festivals/Services - making most of the seasons. Developing family services. Exploring time of services and venue.

Encouragement from one group to another – i.e. a fringe/social group to a more overt church group or to the church service

Encourage young people to assist/join PCC – i.e. active role in Sunday services (servers, taking collection)

Employ/Encourage Youth Worker – a few churches keen to explore employing a Young Worker and some already have one so seeking to encourage them

Communications – keeping in touch with young people, i.e. through email newsletters

New Groups – various! From mum and toddler groups to youth groups and most things in-between

Cannot see a way forward/no young people – a couple of parishes said that they have no aim because they cannot see any way forward either because they do not have resources or simply because they do not have any young people in their parish

To be discussed – a number of parishes said that they hadn't yet had the chance to discuss this/it was on the PCC agenda for next meeting.

Not specific/continuing - several parishes didn't actually specify an aim other than 'encourage young people into church family/life' or they are continuing to develop the work they already have going on.

5) From the information we have, how many children by age group do we have contact with across the Diocese through regular (either Sunday or mid week) groups?

Actual numbers – where a range has been given the top figure has been counted:

6) If at all possible could you find out how many children there are in Cumbria in each age group.

From the County Council – rounded to nearest hundred (NB. Age ranges slightly changed to avoid counting an age group twice)

0 – 5	29,800
6 – 11	31,400
12 – 14	18,100
15 – 18	26,300

Additional data

183 churches report having all age worship

1 – weekly

64 x monthly

1 X 3 per month

9 X 2 per month

11 seasonal

19 have regular mid week all age.

This is clearly a slightly more encouraging piece of data although we don't have attendance figures, and it is not completely certain how robust these figures are because some may represent double counting.
